## PROFESSIONAL SUMMARY

Detail-oriented Full Stack Developer with 1.5+ year of experience in the MERN stack (MongoDB, Express.js, React, Node.js) and Android development experience. Proven track record of building scalable web applications, RESTful APIs, and contributing to production-grade mobile platforms. Expertise in optimizing database performance and delivering responsive, user-centric digital solutions.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), Java, Python, C++, SQL, HTML5, CSS3  
**Frameworks/Libraries:** React.js, Node.js, Express.js, Redux, Spring Boot, Tailwind CSS, Bootstrap, Android SDUI  
**Databases:** MongoDB (NoSQL), MySQL, PostgreSQL, Query Optimization, firebase  
**Tools:** Git, Postman, IntelliJ IDEA, RESTful APIs, Visual Studio, Thunder Client, Jira  
**Key Skills:** DSA, REST APIs, Problem Solving, Analytical Thinking

## PROFESSIONAL EXPERIENCE

- Software Engineer** April 2026 – Present  
*Raja Software Labs* Pune, India
- Working as a software engineer on LinkedIn's Identity (IDY) track, contributing to Android applications built on a Server-Driven UI (SDUI) architecture
  - Resolve bug-fix and feature-implementation Jira tickets end-to-end, collaborating with cross-functional teams to ship reliable, production-ready changes to LinkedIn's Android platform
  - Gained hands-on exposure to enterprise-scale Android development practices, SDUI component design, and structured Jira-driven workflows
- Junior Backend Developer** March 2025 – August 2025  
*Imperial Milestone Pvt Ltd* Jaipur, India
- Architected the HolidayWaale tour platform using React.js and MongoDB, resulting in a 25% increase in booking conversions and supporting a user base of 1,000+
  - Built admin panel with booking management, package customization, and analytics, reducing overhead by 40%
  - Enhanced database queries and API endpoints achieving 60% faster response times
- Web Development Intern** June 2024 – October 2024  
*Doggie India Pvt Ltd* Jaipur, India
- Created Wed-Monkey digital invitation platform using React.js, Chakra UI, Node.js with PDF/video integration
  - Designed RESTful APIs for invitation creation and delivery with 99% uptime
  - Developed responsive UI components ensuring seamless cross-device experience

## PROJECTS

- DarkKnight Vault** | *React.js, Express.js, Node.js, MongoDB, JWT, Bcrypt*
- Developed a secure MERN stack application for sensitive data management, implementing **AES-256 encryption** and **Bcrypt** hashing for robust password security.
  - Engineered a unique **Goal Tracker** feature, allowing users to set, track, and visualize security-related milestones, boosting user engagement by 35%.
  - Implemented secure **JWT-based authentication** and session management, ensuring data integrity and protection against common web vulnerabilities.
  - [Live Demo](#) | [GitHub](#)
- EstateFlow** | *React.js, Node.js, Express, MongoDB, Axios Interceptors, Render, Netlify*
- Engineered a high-performance real estate marketplace supporting **multi-category listings** (Residential, Commercial, Plots) with dynamic schema-based filtering and data fetching.
  - Implemented a robust **Axios-based API layer** with centralized JWT authentication interceptors, automating secure header management and standardizing error handling across 15+ endpoints.
  - Orchestrated production deployment using **Netlify** and **Render**, configuring CORS policies, environmental variable security, and SPA routing redirects to ensure 100% platform reliability.
  - [Live Demo](#) | [GitHub](#)

## EDUCATION

**Bachelor of Technology in Computer Science** 2021 – 2025  
*Arya College of Engineering & Research Centre, Jaipur* CGPA: 8.2/10

## CERTIFICATIONS

HackerRank 5-Star Java, JavaScript(Intermediate) | NPTEL Programming in C, C++ | IIT Bombay Advanced C++, Python Training
